Columbia, Rambler & Hartford bicycles seem to be just about the right thing. We have had samples of these wheels and will have a big stock by the "Australia" in two weeks. Most of the Chainless Columbias are sold to arrive there is such a demand for this wheel. They are a pound lighter this year and are fitted with the SPECIAL TROPICAL TIRE which makes them a perfect mount for these islands. The Columbia Chainless weighs less than 25 pounds and we guarantee it for any rider weighing up to 300 pounds. Our HARTFORD and RAMBLER chain wheels are beauties, call and see the samples. We have a complete repair shop as ever, though it is not conveniently located at present. During this year we expect to get back to the old corner, where a fine modern department is to be fitted up by our new store. At present we sell, rent and repair wheels in the brick building on the upper side of King street opposite to where our old stand was and are able to do the best repair work done in town, rent the well known Columbia Chainless, and sell any model of Columbia, Rambler or Hartford for cash or on easy instalments. We want your custom.

Were on the Verge of War With Germany

Washington, Jan. 17.—The reason that the Administration does not desire at this time to divulge the instructions to the Peace Commission, a proposition to call for which was defeated in the Senate yesterday, leaked out today. The facts as disclosed today are said to be as follows:

For twelve weeks, in the fall of 1898, the United States was on the verge of war with Germany. The attitude of Admiral von Diederichs at Manila, and later that of Prince Henry, the brother of Emperor William, was assumed because of the attempt of Germany to secure practically the same advantages in the Philippines as the United States. The United States at that time was uncertain as to the attitude of Russia and the other powers, and were, besides undecided as to their own course in the Philippines.

According to a statement made today an agreement was finally reached by which the \$20,000,000 paid to Spain was awarded with the understanding that she should cede to Germany the Caroline Islands. The friendship of Great Britain, which had been manifested throughout the American operations in the Philippines, was partly rewarded through this \$20,000,000; inasmuch as the interests of the British holders of Spanish bonds were protected by the payment.

Dewey's firm course with Von Diederichs was the chief factor in preventing an open break with Germany.

Scandals of the Navy.

Boston, Jan. 20.—A letter received from a naval officer at Manila, dated the 12th ult., says that two scandals in the United States squadron are causing much talk. One of them is the killing of a Filipino by Captain McGinn of the Monadnock, because the man climbed aboard the ship forward instead of aft, as is required by naval custom.

It is maintained that the Captain intended to fire over the man's head to scare him, but the bullet went low and hit him in the head, from the effects of which he died soon after. The other subject of talk is Commander Henry C. Berry, who up to the present time has had every officer on the vessel except one under suspension. One of them objected and although the authorities desired to quiet proceedings, the officer will have a hearing and the matter will be carried to the Department at Washington.

Chinese Tries Law.

Wailuku, Feb. 2.—Ah Kun, one of the five celestials arrested by the police on their raiding rounds at Kihel the other day, was tried before Magistrate Kulekai yesterday for opium in possession. The defendant appeared in person and desired to proceed with his own case as he understood a little law during his short residence in Kihel.

The defendant went on the stand and under oath declared that he never saw opium in his life or any preparations thereof. When shown the horn containing the opium wrested away by the police from the defendant when making the arrest, the expert witness looked at the opium horn for a while and then declared it to be machine oil. There was laughter in the courtroom at the expense of the defendant, however, for he was fined \$150.

Noted Woman Dead.

New York, Jan. 21.—Mrs. Roswell Smith, 73 years old, the widow of the late Roswell Smith, founder of The Century Company, died at her home in Toluca early this morning.

It was Mrs. Roswell Smith, who in 1844 was Miss Annie Ellsworth, then a girl of 17, sent the famous first telegraphic message, "What God hath wrought." Her father, Henry L. Ellsworth, son of Chief Justice Ellsworth, was the first Commissioner of Patents and has been called "the father of the Patent Office." He had been a college friend of Prof. S. F. Morse. Together they induced Congress to pass the bill granting \$30,000 for the construction of the trial line between Washington and Baltimore in 1843.

Smallpox Epidemic.

Victoria, B. C., Jan. 22.—According to advices received by the British Columbia Government, the epidemic of smallpox in Washington and Idaho has spread to an alarming extent, and British Columbia is dreading an invasion. Attorney General Henderson yesterday evening received a telegram from one of the agents of the provincial government at Nelson, B. C., stating that information had been received by the agent that there were now between 600 and 700 cases of smallpox in the States of Washington and Idaho tributary to British Columbia. This information, the agent says, he has on the best authority.

Fish Inspector Berndt has come across some very curious and beautiful fish lately which are being painted by KING BROS. artists. A very peculiar crab is on view in KING BROS. window, Hotel street.

HEALTH BOARD MEETING.

At the afternoon session of the Board of Health yesterday afternoon there were present the following: President Wood, Dr. Day, Geo. W. Smith, F. M. Hatch and F. J. Lowrey. The Board spent most of the time of the meeting looking over the map of the block in which the Pantheon stables and saloon were situated with the object of coming to some conclusion as to the proper treatment of the various structures. No conclusion was arrived at, the Board preferring to treat the remainder of the block after the destruction of the Pantheon stables and saloon.

A protest from Cecil Brown, agent for the L. L. McCandless buildings on Nuuanu street, the back shacks and lean-tos of which were recently condemned by the Board of Health while inspecting the place, was read by President Wood. Mr. Brown stated that these buildings would not be torn out without recourse to law. The communication was tabled without discussion or action. The Board has already acted and its instructions will be carried out.

Paul Neumann, representing the Chinese laundryman at the corner of Emma and Beretania streets appeared and asked the Board for further information regarding the place. His client had started to put the premises in a sanitary condition after his first call on the Board but, since that time, he had seen a communication in the morning paper signed by various business men, which took the form of an appeal for the destruction of the place. His client then stopped operations pending further information. Certainly a brown stone front building would be more sightly than the present shacks, but that was not the question. Had the Board decided on any definite measures?

As a result of Mr. Neumann's call the Board voted to visit the premises in a body before passing finally on the disposition to be made of the same.

Mr. Lowrey moved that the saloons of the city be closed except between the hours of 6 a. m. and 7 p. m. Motion lost.
